Validity end 31.12.2019

1 = Number of the purchase sched. agreement

2 = Date of creation of the pur. sched. agreement

3 = Start date and end date of the pur. sched. agreement

The general purchasing terms of Durst Phototechnik AG are valid for scheduling agreements. The following positions shows the total quantity and the period of validity of the scheduling agreement. Quantity and delivery date of single lot(s) will be defined separately when required.

General rules for the release of quantities and delivery dates:

1. Quantity released for production:

"durst" granted the production of release quantities up to a maximum of 4 weeks after the last fixed *delivery date . Scheduled quantities which are exceeding these 4 weeks have to be considered as a rough forecast without any obligation by "durst". These quantities derive as a preview from our own planning horizon.

2. Delivery release:

A marked fixed delivery date "*" in the schedule line is binding. All other indicated delivery dates in the schedule line are only to understand as non-binding rough forecast and are going to be fixed separately in accordance with the requirements of "durst" . The lead time after fixing the delivery date has to be max 14 days.
